ABOUT THE INSTITUTE

NRCM is promoted and managed under the inspiring and dynamic Chairmanship of Sri. J. Narsimha Reddy and a fleet of dedicated members. This is the first institution belonging to Jakkula Educational Society (J.E.S.) was established in 2007 to serve the people of this backward region of Telangana. This institution is developed strictly in accordance with the provisions of governing rules and regulations of the approving bodies. We, at N.R.C.M., aspire to establish a system of quality assurance continuously evaluation, monitoring the quality of education and training imparted at the Institute. We strive for improvising teaching and learning process to make N.R.C.M. the centre of Excellence.

This Institute is built upon the spacious campus, aesthetically and articulately designed with lush green gardens and landscape. The ideal architecture buildings in the campus add to the overall beauty and elegance of our Institute. It provides an ideal ambience to the budding engineers to shape their career, by imbibing knowledge under the careful observation of the Principal and the dedicated faculty. This Institute is ideally located at Maisammaguda, Secunderabad, Ranga Reddy District and is just at a distance of 15 km from Secunderabad.

DEPARTMENT OF CIVIL ENGINEERING

The Department of Civil Engineering was started with a sanctioned intake of 60 in the year 2013.

The department aims to enrich the knowledge of students in both theory and practice with a team of highly qualified faculty with rich experience in the diversified streams of Civil Engineering. The department of Civil Engineering is equipped with state-of-the-art laboratory facilities having advanced equipment's and machineries operated by experienced Technicians and plays a vital role in training the students through In-plant and industrial visits to tackle the field problems

ABOUT THE FDP:

Faculty Development Program on “OUTCOME BASED EDUCATION” is an attempt by the Department of Civil Engineering at NARSIMHA REDDY ENGINEERING COLLEGE, Secunderabad to promote the understanding and use of outcome based education in various Engineering Streams.

The National Board of Accreditation, a body for promoting international quality standards for technical education in India has started accrediting only the programmes running with OBE from 2013. The National Board of Accreditation (NBA) is considered a big leap forward for the higher-education system in India. Teachers in Engineering and Science disciplines in higher education usually join the teaching profession without any formal training in teaching methodology and learning psychology. Incidentally they develop teaching skills out of their own experiences or from experiences shared by colleagues in course of their teaching career. Most often, they are also influenced by the ways in which their teachers taught them. Pedagogy in higher education has undergone revolutionary changes in the past few decades. Traditional methods of lecturing have become obsolete in today’s scenario where Outcomes Based Education and Student-Centered Teaching has become order of the day. Further, emergence of a plethora of ICT tools and their usage in Teaching-Learning Process has been redefining the role of a teacher from a mere provider of information to a facilitator of learning. Now the AICTE has mandated that every Engineering College must be accredited by NBA.

OBJECTIVE OF FDP:

- To create awareness for faculty members about outcome-based education
- To understand the implementation of OBE in NBA Process.
- To use various innovative teaching learning facilities

FDP OUT COMES:

After successful completion of FDP, the participants will be able to

- ❖ *Formulate Vision, Mission, PEOs, PSOs and Cos*
- ❖ *Identify and apply appropriate assessment methods for POs, PEOs, PSOs and Cos.*
