Objective of The Event	The objective of National Pollution Control Day 2025 is to raise awareness about the causes and harmful effects of pollution on human health, ecosystems, and climate, and to promote collective responsibility toward environmental protection.
Benefit in terms of learning/Skill/Knowledge obtained	<ul style="list-style-type: none"> • Educate citizens about different types of pollution (air, water, soil, noise) and their long-term impacts. • Encourage adoption of sustainable practices to reduce pollution at individual, community, and industrial levels. • Commemorate the victims of industrial disasters (notably the Bhopal Gas Tragedy) and reinforce the importance of strict environmental safety norms. • Promote compliance with environmental laws and support the role of pollution control authorities. pollution prevention and environmental conservation.
Brief Report:	<ul style="list-style-type: none"> • Programme commenced with a warm welcome to students and staff. • Principal Dr. R. Lokanadham inaugurated the event with a brief address on pollution control importance. • Emphasis on “Sustainable Practices for a Pollution-Free Tomorrow”. • Encouraged innovative thinking among participants. • Students participated in an e-poster competition on topics related to air, water, and soil pollution.

- Creative digital posters showcased solutions to current environmental challenges.
- All submissions were displayed on digital boards and shared with the community via email and social platforms.
- Posters were evaluated by a panel of faculty based on creativity, relevance, and clarity.
- Criteria included scientific content, visual impact, and message effectiveness.
- Dr. R. Lokanadham praised students for using digital media to raise awareness.
- Highlighted role of technology in environmental education.
- Principal Dr. R. Lokanadham distributed awards to the top three e-poster winners.
- Certificates and prizes were given to encourage continued environmental engagement. Top of Form Bottom of Form
